NOV 12 11:55

DEAR SECRETARY SHALALA:

I am writing to express my concern about the possible weakening of labeling requirements for foods that have been irradiated. I strongly believe it is the public's right to know if their food has been treated with radiation. This will allow consumers to make choices for themselves about what is healthy.

I hope you will defend the consumers' right to know in this important decision-making process.

Sincerely,

Rachel Blumenthal
